COURSE DESCRIPTION: Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined.

COURSE OBJECTIVES: At the completion of this course, students should be able to:

1. Explain how interpretation is important to the management of tourism, event and recreation resource sites;
2. Discuss principles of interpretation and communication;
3. Analyze interpretive materials and presentations; and,
4. Prepare several types of effective spoken and written interpretive messages.

Further, upon completion of this course, students will meet the following professional accreditation standard for the *Council on Accreditation of Parks, Recreation, and Tourism Related Professions*:

7B.03	Understanding the principles and practices of stewardship and use of natural resources and the ability to interpret them to the general public, particularly as related to the public's role in stewardship.

COURSE OVERVIEW: In this course, we will examine, discuss, develop, and critique multiple examples of interpretive projects developed by you, your colleagues, and professionals. Because your contributions are so important to this course, you will be expected to attend all class meetings scheduled, actively participate in class discussions on-line and in-person, complete in-class exercises as distributed, and fulfill all assignments according to the due dates noted.

ACADEMIC INTEGRITY: GMU is an Honor Code University; please see the University Catalog for a full description of the code and the honor committee process. The principle of academic integrity is taken very seriously and violations are treated gravely. What does academic integrity mean in this course? First, it means that when you are responsible for a task, you will be the one to perform that task. When you rely on someone else's work in an aspect of the performance of that task, you will give full credit in the proper, accepted form. Another aspect of academic integrity is the free play of ideas. Vigorous discussion and debate are encouraged in this course, the firm expectation that all aspects of the class will be conducted with civility and respect for differing ideas, perspectives and traditions. When in doubt, please ask for guidance and clarification.

COMMUNICATION: Communication is an important part of this course, therefore, I ask that you check our website, **using Blackboard 9.1 each morning for course communications.** To do this, you'll need to go to "MyMason" (found at the top of our gmue.edu webpage), log in with your username & password, click on the "Courses" tab along the top right of the page, and go to the "9.1 Course List" to find our course. This is important since we're using Blackboard 9.1 (not the old CE Blackboard version).

REQUIRED READINGS

Knudson, D.M., Cable, T.T., and Beck, L. (2003). *Interpretation of Cultural and Natural Resources, 2nd edition*. State College, PA: Venture Publishing, Inc.

Additional readings as indicated on the course syllabus.

ASSIGNMENTS: Unless otherwise notes, **our papers will be submitted to a SafeAssign folder on our course Blackboard.** This allows for an “originality check” and you can also view your own originality report. Assignments will be due at the beginning of class on the specific due date. All written papers are to submitted in WORD (.doc or .docx). **Papers received after the beginning of class will be considered late and receive a 20% deduction in points per 24-hour period.** If you encounter extreme emergencies or are participating in a pre-approved university-sponsored function, exceptions may be made; however, these must be discussed with me to determine if they fall in this category. I strongly encourage you to make a back-up copy of any work submitted since computers have been known to crash at the most inopportune times.

Assignment Summaries

Interpretive Talk

For this assignment, you will choose a topic, with a specific theme. Then, following the steps for planning, preparing, and delivering a thematic interpretation, you will give a short interpretive talk (without using PowerPoint!). Your peers and I will be evaluating the success of your team’s talk, and you will evaluate your peers’ talks as well.

Brochure Analysis

For this assignment, you will collect an interpretive brochure from the tourism, park, and recreation field and analyze it for its effectiveness at communicating its intended message, as well as for its effectiveness in following interpretive brochure design and communication strategies. You will write a short (approximately 3-4 page) report detailing your assessment of the brochure using criteria identified in our course.

Interpretive Trail at the EDGE

This is a culminating project for our course and will require you to develop an interpretive program for a specific age group in an assigned (or chosen) category for Prince William’s Center for Team and Organizational Learning, i.e. The EDGE. You will work in small groups to design and implement your program which will be presented during the last two weeks of the course to your peers as well as possible other participants. In the course of this project, your team will be required to identify a team leader, engage in an initial client meeting (and follow through with that plan), collaboratively prepare a program, engage in a final client meeting, and deliver the program.
