COURSE DESCRIPTION

This course provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions will address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry.

COURSE OBJECTIVES

At the completion of this course, students should be able to:

1. recognize the connections among sport communication practices and cultures;
2. develop analytical abilities in application of theories and concepts to sport communication practices;
3. watch, analyze, critique, and discuss the media's portrayal of the community of sport;
4. analyze the discourses surrounding sports issues; and
5. gain an awareness of the pervasiveness of sport communication in other venues.

COURSE OVERVIEW: POLICIES

1. **Participation.** Attendance and punctuality are essential for success in this class. Much of your work is based on information from the lectures and participation in class discussions. Your absences and/or tardiness will affect your general progress and that of your classmates. Zero to two absences will result in no penalty unless they occur on a day when you are assigned to present a project or complete an assignment. Students who arrive late or leave early will be counted as absent. Some absences may be excused provided **prior** arrangement is made with me. Examples of excused absences may be for medical reasons or field trips in other courses and will be allowed only at my discretion. Students who stop coming to class without discussing with me will receive a failing grade. Should you miss an assignment due to absence, you will be allowed to make it up provided that you have written documentation regarding the nature of the absence. If you miss an oral presentation, it is up to me as to how and/or if you will make up the assignment.
2. **Written Assignments.** Written assignments will be expected to demonstrate college-quality writing. In-class writing will not be stringently evaluated, but ALL work prepared outside of class (papers) will be assessed for content AND for presentation. While a variety of qualities may pass for "college level," at a minimum it means writing is appropriately concise and clear; words are properly spelled; punctuation is appropriate; sentences are complete; and subject/verb, pronoun/antecedent agree.
3. Papers submitted to the instructor must be typed, and attention should be paid to form (including grammar, punctuation, spelling, and general appearance) as well as to content. Use standard APA documentation consistently.

4. Papers/abstracts/written assignments not turned in on the specified day will be given a grade lower than the one deserved. For example, an “A” assignment submitted late will be given a grade of “B.” No written work will be accepted later than one week after it is due.
5. **Honor Policy.** George Mason University takes its honor policy quite seriously. Examinations, papers, and other assignments must be your own work (except where you hire a typist or proofreader) with only the exception of group projects.
6. **Plagiarism** is representing another’s work as your own or recycling your work and representing earlier work as new work. Remember to use proper source citations in citing the evidence you use in your research. Failure to do your own work, or not to give credit where necessary, may result in failing the course and a report to the honor committee.

Further, upon completion of this course, students will meet the following professional accreditation standards:

SMPRC: NASSM-NASPE Standards

Standard	Content
7	Interpersonal communication; small group communication; media and sport; electronic media; e-mail, web sites, graphics, desk-top publishing; print media; public speaking; mass communication and sport; computer application; customer service; team building; meeting management; sport journalism/broadcasting; ratings and shares; organizational communication; writing press releases

NATURE OF COURSE DELIVERY

The class will have lecture, discussion, and group work formats and will require active participation of all students.

REQUIRED READINGS

Brown, R. S., & O’Rourke, D. J., III. (Eds.). (2003). *Case studies in sport communication*. Westport, CT: Praeger.

Billings, A. C., Butterworth, M. L., & Turman, P. D. (2011). *Communication and sport: Surveying the field*. Thousand Oaks, CA: Sage.

Additional required readings (e.g., journal/magazine/newspaper articles) will be available via Mason’s eReserves and the Mercer Library circulation desk.

RECOMMENDED (OPTIONAL) READING

Hacker, D. (2010). *A pocket style manual* (5th ed.). Boston: Bedford/St. Martin’s.

EVALUATION

Grades will be assigned on the basis of two tests, both at 20%; an in-class presentation based on one of the discussion units at 20%; a short paper—a critique of a print or online sports commentary—weighted at 15%; and a final collaborative term paper/project makes up the remaining 25%. You will be notified about any additional readings. Specific guidelines pertaining to presentation and paper content will be provided.

Final grades and individual assignments will be recorded with “plus/minus” letter grade annotations. You can use the table below to do your own grade calculation. Convert letter grades to numerical equivalents using this scale: A=10, A-=9, B+=8, B=7, B-=6, C+=5, C=4, C-=3, D=2, F=1. Multiply the numerical equivalent by the weight to get the weighted value. Add the weighted values and use the conversion scale to convert the total back to a letter grade. (Note: No credit towards graduation accrues from a failing grade or from a grade that is replaced by a retaken course. For more information, please consult the current edition of the university catalog.)

	Letter Grade	Numerical Equivalent	Weight	Weighted Value
Test 1			.20	

	Letter Grade	Numerical Equivalent	Weight	Weighted Value
Test 2			.20	
Unit Discussion Presentation			.20	
Short Paper (critique of sports commentary)			.15	
Term Paper/Project			.25
