COURSE DESCRIPTION

Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system.

COURSE OBJECTIVES

This course stresses the interconnectedness, difference and diversity that are central to understanding and operating in a global society. At the completion of this course students should be able to:

1. Discuss the impact of tourism on the global economy and other peripheral areas (e.g. developing nations).
2. Analyze significant global tourism issues and demonstrate an awareness of how these issues are perceived and dealt with in different cultural and historical traditions.
3. Describe the ways in which tourism contributes to appreciation of cultural heritage and the international foundations of American society.
4. Discuss the social impacts of global tourism, including acculturation, religious tolerance, and political awareness.
5. Discuss the role of international tourism in promoting world peace.
6. Design an international travel itinerary that would allow a tourist to learn about another country.
7. Visit other countries with an improved sense of host/guest relations and with greater appreciation for the opportunities to expand learning about the world cultures.

COURSE OVERVIEW

The course looks at global tourism from different aspects: that of the tourist, that of the tourism service providers, that of the government agencies that promote and regulate it, that of groups that promote tourism, that of researchers and observers, and that of others. Student presentations are meant to augment the formal presentations. Classes, reading assignments and student presentations, and often guest speakers, emphasize the different aspects of global tourism. As the course progresses students should be able to integrate these topics and see how the field of global tourism is broad and complex.

This course will be valuable to you only if you actively participate by reading, thinking, and joining in class discussions and activities. I strongly encourage your attendance in class, your participation in in-class activities and discussions, and the timely completion of homework and assignments. You are expected to attend all class sections, actively participate in class discussions, complete in-class exercises and fulfill all assignments. Assignments must be turned in at the beginning of class on the specified date due or **no credit will be given**.
