### **TECHNICAL REQUIREMENTS:**

To participate in this course, students will need the following resources:

- High-speed Internet access with a standard up-to-date browser, either Internet Explorer or Mozilla Firefox. Opera and Safari are not compatible with Blackboard;
- Consistent and reliable access to their GMU email and Blackboard, as these are the official methods of communication for this course
- Students may be asked to create logins and passwords on supplemental websites and/or to download trial software to their computer or tablet as part of the course requirements.
- A headset microphone for use with the Blackboard Collaborate web conferencing tool

## **EXPECTATIONS:**

- **Course Week:** Refer to the asynchronous bullet below if your course is asynchronous or the synchronous bullet if your course is synchronous.
  - Asynchronous: Because asynchronous courses do not have a "fixed" meeting day, our week will **start** on Monday, and **finish** on Sunday.
  - Osynchronous: Our course week will begin on the day that our synchronous meetings take place as indicated on the Schedule of Classes.
- **Log-in Frequency**: Refer to the asynchronous bullet below if your course is asynchronous or the synchronous bullet if your course is synchronous.
  - Asynchronous: Students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be 3 times per week.
  - Synchronous: Students must log-in for all scheduled online synchronous meetings. In addition, students must actively check the course Blackboard site and their GMU email for communications from the instructor, at a minimum this should be times per week.

- **Participation**: Students are expected to actively engage in all course activities throughout the semester, which include viewing of all course materials, completing course activities and assignments, and participating in course discussions and group interactions.
- Technical Competence: Students are expected to demonstrate competence in the use of all course technology. Students are expected to seek assistance if they are struggling with technical components of the course.
- **Technical Issues**: Students should expect that they could experience some technical difficulties at some point in the semester and should, therefore, budget their time accordingly. Late work will not be accepted based on individual technical issues.
- Workload: Expect to log in to this course at least \_\_\_3\_\_ times a week to read announcements, participate in the discussions, and work on course materials. Remember, this course is **not** self-paced. There are **specific deadlines** and **due dates** listed in the **CLASS SCHEDULE** section of this syllabus to which you are expected to adhere. It is the student's responsibility to keep track of the weekly course schedule of topics, readings, activities and assignments due.
- Advising: If you would like to schedule a one-on-one meeting to discuss course requirements, content or other course-related issues, and you are unable to come to the Mason campus, we can meet via telephone or web conference. Send me an email to schedule your one-on-one session and include your preferred meeting method and suggested dates/times.
- Netiquette: Our goal is to be collaborative, not combative. Experience shows that even an innocent remark in the online environment can be misconstrued. I suggest that you always re-read your responses carefully before you post them to encourage others from taking them as personal attacks. Be positive in your approach to others and diplomatic with your words. I will do the same. Remember, you are not competing with each other but sharing information and learning from one another as well as from the instructor.

#### **TOUR 412 Class Policies**

**Attendance** – Regular attendance is essential to your success. Participation in weekly assignments and discussions, as well as attending presentations of your classmates is a necessary requirement of this course. We will work to build a sense of community within our online classroom, but it is up to you to attend, join in and take part.

Case Studies/Discussions: Throughout the term there will be graded Case Study Assignments and Weekly discussion questions that you are to respond to. Discussions will be topical and due on Thursdays of each week, and you should provide comments and feedback to at least two classmates by the end of the week (Sunday). All graded Case Studies and Discussions will total 75 points and no make-ups will be given. Students who are absent and present a doctor's note will be provided with an alternative assignment. Work submitted after the week had ended will receive a zero for the assigned Discussion Questions and/or Case Study.

**Group Marketing Plan and Presentation** – The group project is meant to be a team effort and will be graded accordingly. Each team member will receive a group grade as well as an individual grade based on their role in the presentation, written document and based on the peer reviews. If there is an issue with participation within a group, and one member is given 0-1 peer points by all other group members, the professor reserves the right to assign a new project to the identified student at a reduced point base.
