Evaluations must be completed by program participants during your leadership project; data collected from survey will be used for the Evaluation Project. Students can utilize online evaluation tools to collect participants' responses instead of using a pen/paper questionnaire.

Completion of the program or activity must be verified by the office where the service was provided. You must record your experience in a leadership report. The report should be 3 pages, typed, double-spaced, using a Times New Roman 12 font. The paper should include the following:

- Name and location of the program or event
- Description of the program or event you lead

- Your evaluation of the program or event (include what was successful and your suggestions for improvement)

IMPORTANT – This is NOT a volunteer assignment. Students must demonstrate leading, implementing and evaluating a program or activity.

Leadership Video (5 points)

During your leadership project, students will record part of the program/activity. Please make sure participants being recorded are aware of videotaping. A consent form will be posted on Blackboard, make sure participants sign the consent form before videotaping them. The video should be 5 minutes or less and showcase your program/activity.

Evaluation Project (10 points)

Based on the evaluations collected from your Leadership Project, students are asked to analyze and tabulate data from surveys. Students will provide totals, averages and analyze non numerical data. Students will use tables for quantitative analysis. In a separate document, students will provide written recommendations based on their analysis of survey responses.

Participation (10 points)

Students are expected to participate in weekly discussions on Blackboard and responding to comments made by other students. Please keep in mind that comments made by students should be made in a respectful manner. Students may disagree with comments made but should remain respectful to the opinion of others.
