COURSE DESCRIPTION: Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks maximum for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Start date is the first day of classes.

COURSE OVERVIEW

The student is assigned tasks and responsibilities and is held responsible for their completion, as well as an associated portfolio where all activities are documented. Students are expected to complete a minimum of 120 hours over a period of 10 to 14 weeks. The number of weeks may be abbreviated for summer experiences.

COURSE OBJECTIVES

At the conclusion of this course, students should be able to:

1. Describe and analyze the managerial and operational structure of their practicum site;
2. Demonstrate skills and competencies in routine business administration (e.g., accounting and record keeping, planning, public relations, assessments, staff relation);
3. Evaluate their personal strengths and weaknesses in light of demands and expectations of employment in the various positions in the field; and
4. Set career objectives in the tourism and event management industry.

RESPONSIBILITIES

Student responsibilities during the practicum

During the practicum, which involves a minimum of 120 hours, the student must meet certain responsibilities and obligations to the site and/or site supervisor, as well as to the university to fulfill their requirements. These include:

1. Reporting directly to the site supervisor for instructions. The practicum student is responsible for fulfilling their duties as stipulated by their supervisor, and for meeting their scheduled training commitments and arrangements;
2. Participating in orientation sessions with their site supervisor;

3. Familiarizing and abiding by all the rules, regulations, policies and procedures of the site applicable to their conduct while in the site's employment;
4. Becoming an integral and participating member of the site's staff;
5. Acting in a professional manner both as a site staff member and when dealing with the site's clientele. The student is a representative of GMU and an ambassador for the TEM program. A positive work experience effectively 'paves the way' for the future placement of other interns. It is therefore imperative that a cooperative attitude and good work record and habits be maintained for good rapport between the student, faculty supervisor and the Site;
6. Visiting, observing, and participating, as appropriate, in various levels of the site's operations, including meetings, programs, projects and training sessions. This enables the student to strive toward higher levels of personal and professional growth and fulfillment;
7. Meeting with the site supervisor and the faculty supervisor during a routine on-site visit of the latter to the site, if such a meeting is practicable; otherwise, the faculty supervisor may contact the site supervisor by phone or e-mail for feedback regarding the student's performance;
8. Notifying the site supervisor in advance when it is necessary to be absent from work;
9. Participating in post-activity discussion with their site supervisor;
10. Completing the required portfolio, following the *Practicum Portfolio Guidelines* described in Appendix 8 of the Practicum Manual, and submitting it by the announced due date (given by the faculty supervisor). The Practicum Portfolio must be well organized (i.e., Table of Contents included, Tabs included, **information typed**, and otherwise professionally presented). The front cover and title page must include: **i) name of student, ii) name of practicum site, iii) course information (e.g., TOUR 241-XXX) and iv) the semester/year. Practicum contents should be compiled in a 3-ring notebook. Students must include samples of work completed during the practicum experience;**
11. **Ensuring that they stay in constant communication with their University Supervisor by regularly checking their George Mason University e-mail accounts and Blackboard, and responding to requests in a timely manner;** and
12. Sharing all Practicum requirements, including the site supervisor responsibilities outlined below, with their site supervisor;

Site Supervisor responsibilities during the practicum

The site supervisor plays a pivotal role in the lives of students at the personal and professional career level by offering advice, instruction and supervision that furthers a student's professional competence. By providing a challenging and stimulating work experience, students are allowed to discover their own strengths and weaknesses in their chosen professional career. Thus, the site supervisor is expected to assume responsibilities and obligations to the student and the Faculty supervisor that foster learning and are in line with the Tourism and Event Management's practicum course requirements. These are summarized below:

1. Providing the student with a structured and supervised learning experience;
2. Preparing the site or institution staff for the arrival of the student, and orienting the student to the site's history (including organizational chart), philosophy, policies regulations, administration, programs and facilities in order to allow the student to function effectively in the practicum setting;
3. Providing timely and fair evaluative summaries of the student's work, including filling in a written *Final Practicum Performance Assessment Form*;
4. Immediately notifying the practicum faculty supervisor of any emerging condition that significantly affects the student's ability to succeed or complete the agreed upon practicum tasks;

5. Directly reimbursing the student for any costs they are authorized to incur on behalf of the site, or for reimbursable expenses identified in advance by the site; and
6. Accepting the student as a volunteer or paid member of staff (as applicable) and afford them all the rights and protections pertaining to that status.

Faculty Supervisor responsibilities during the practicum

1. Assisting the student to develop or acquire resources or skills necessary for the successful completion of assigned tasks;
2. Facilitating resolution of problems that may occur during the practicum between the student and the site;
3. Soliciting evaluative commentary and reports from the student and the site supervisor;
4. Receiving, reviewing, and evaluating required submissions from the student and site supervisor; and
5. Advising and assisting the site on matters pertaining to enrichment of the educational experience in the practicum.
