Course Overview

This course is a seminar and requires preparation, extensive in-class discussion, and attendance for presentations from industry professionals. It is expected that students will demonstrate the knowledge and competencies they have developed during preceding semesters in the BS-TEM program. The following rules and guidelines are in support of the effort to prepare seminar participants to enter the profession:

1. Attendance and participation are key elements to a successful learning experience. When tardiness or an absence is anticipated, it is the responsibility of the student to advise the instructor in advance. Advising the instructor of unexpected absence or tardiness should take place at the earliest opportunity. **Each undocumented/unexcused absence will automatically reduce your Assignments/Participation/Attendance grade. Points will be given each day for attendance. Points will also be deducted for tardiness or leaving class early.**
2. Assignments will NOT be accepted after the due date.

3. Unless required due to documented disability or approved by the instructor, laptop computers, tablets, phones and other mobile devices may NOT be used during class meetings unless they are being used for a learning activity.
4. If your instructor is not in the classroom at 10:30 a.m., please wait 20 minutes before leaving.
5. The instructor reserves the right to change this syllabus in order to improve the quality of the overall learning experience. Changes may include scheduled activities, classroom policies, and future grading criteria, and will be communicated to all students.
